DukaAI

Turn the shop notebook into a bank-ready record.

One photo a day. Kinyarwanda, French, English. Personalized reports and answers for every shop.

Hacktoberfest Hack Day Kigali 2026 | Built with Gemma 4.

Claudine writes every sale. None of it is usable.

She can’t total her revenue

She forgets who owes her

She has no proof of income for a loan.

Apps fail because typing every sale is too slow for a busy shop.

Claudine isn’t alone.

88%

of Rwanda's businesses keep no regular accounts.

36.1%

of informal enterprises struggle to access credit.

NISR 2023

DukaAI

Keep writing. Snap once. Know your business.

Write

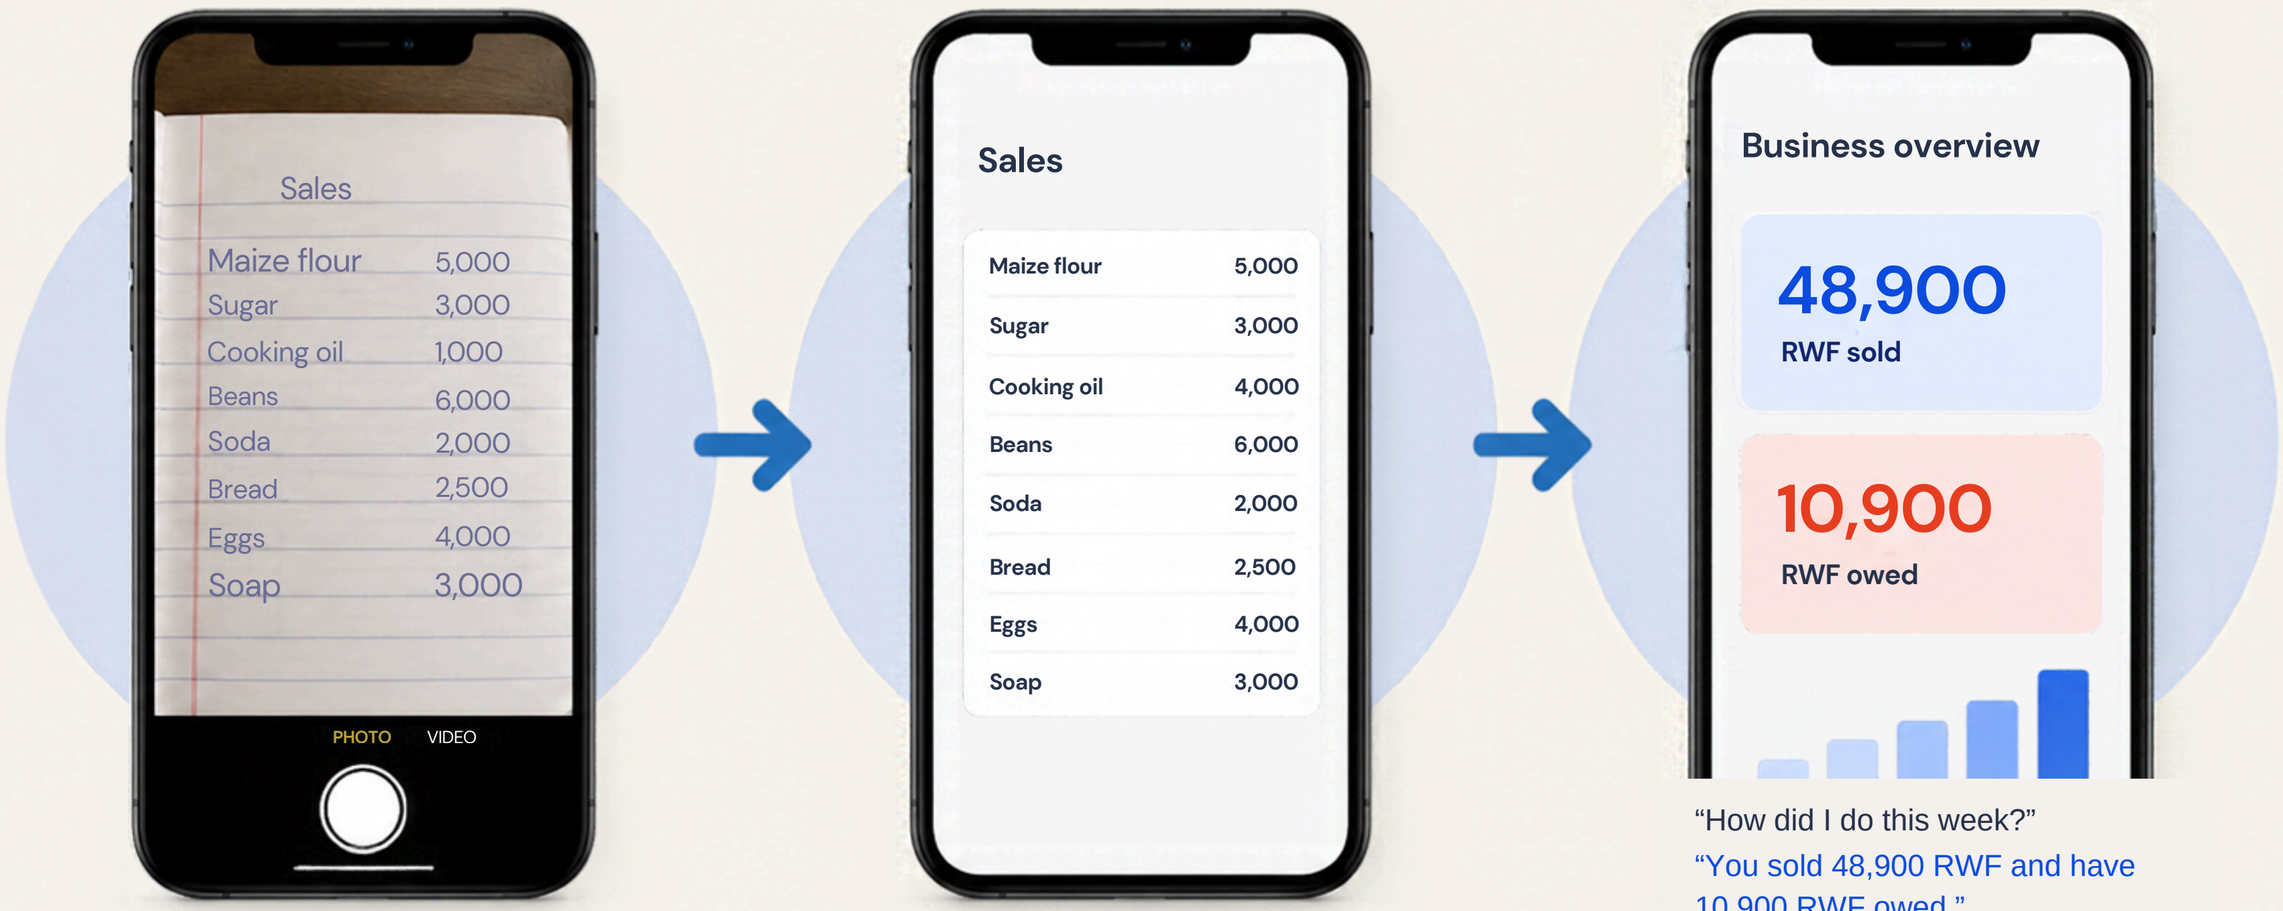
Check

Know

Know your own report — ask about sales, debts, or best sellers. The AI drafts. Claudine decides.

A notebook photo becomes a personalized report.



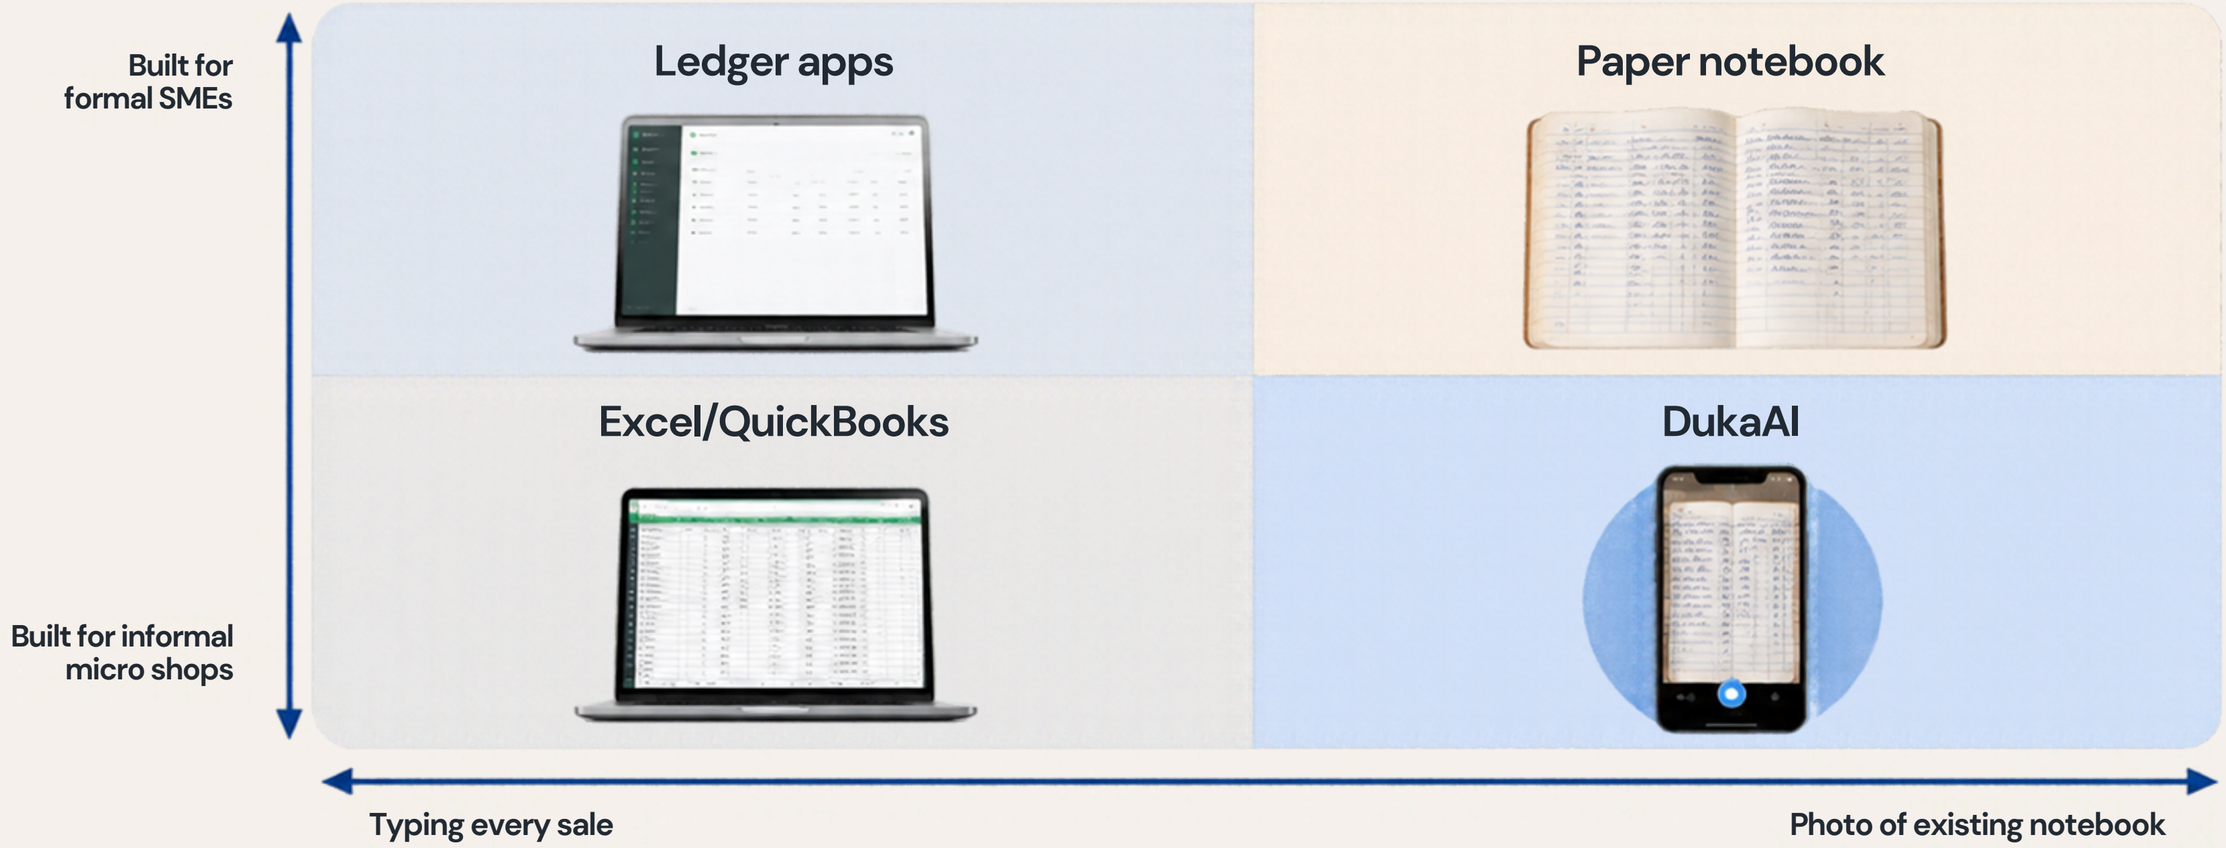
“How did I do this week?”

“You sold 48,900 RWF and have 10,900 RWF owed.”

Report generated from Claudine’s own notebook records.

Live demo: dukaai.apps.thalesops.com

DukaAI is built for informal micro shops and finances, not formal SMEs.

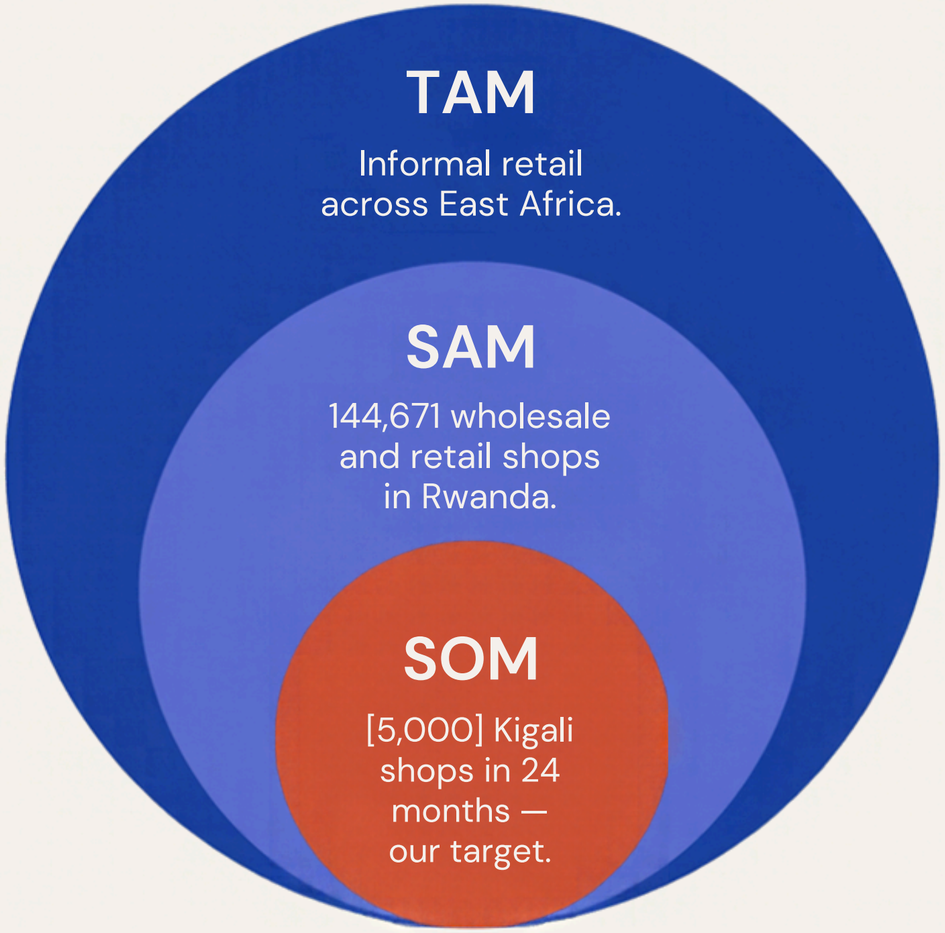


Kinyarwanda handwriting

Works offline

Responsive AI grounded in each shop's records

Rwanda's retail market offers a focused path to scale.



DukaAI

Three customer groups support a practical business model.

Shop owners

Personalized sales, debt and income reports. Free, then 5,000 RWF/month.

SACCOs and microfinance

Owner-verified income reports.

Distributors

Relevant, permissioned credit insights subscription.

Personalized reports today; responsive answers next.

Q1 2027

WhatsApp photo bot
Personalized weekly report

Q2
